Dear Dr. Lederberg,

We are doing research into the relationship between family background and creativity, using Nobel Prize winners as examples of creative human beings. We suspect that your prize has already cost you a good deal of privacy, but hope that you will feel you can respond to our questionnaire anyway. The information you provide will be kept confidential and presented in statistical summaries alone.

We would greatly appreciate your answering the enclosed questionnaire and returning it in the enclosed envelope.

If you would like to see the results of our research, please write us after June 30, 1981.

Thank you for your help.

Sincerely,

*Roger D. Clark*
